

Scarborough Capital Management Enhances Client Reporting with Adhesion's WealthADV

April 30, 2009 - Charlotte, NC

Adhesion Wealth Advisor Solutions announced today that Maryland-based Scarborough Capital Management, a leading provider of actively managed 401k accounts, has greatly enhanced client reporting through its adoption of Adhesion's WealthADV reporting and back office solution.

"Adhesion creates a client reporting package and on-line experience that is second to none," states Ian Arrowsmith, Vice President of Investments at Scarborough. "They completely handle the daily account data management that we previously had to deal with internally, delivering that data through their state-of-the-market performance measurement and reporting services. We love the fact that we have a lot less work to do while our clients get a much better product than we could deliver on our own."

WealthADV

Multi-Manager UMA Platform

Innovative, lower cost alternative to custodian-based managed account programs, traditional TAMPs, and mutual funds

Distinctive Client Reporting

Project a distinctive image with high impact client household reports and online portal

Managed Back Office Services

Efficient, scalable alternative to internal systems and operations staff

Is Managed Investing
