

INTERNATIONAL EQUITY STRATEGY FROM EAGLE GLOBAL ADVISORS NOW AVAILABLE VIA ADHESION TECHNOLOGIES' WEALTHADV PLATFORM

November 3, 2006 – Houston, Texas – Eagle Global Advisors, LLC, named “Best International Separate Accounts Manager” in 2005 by *Investment Advisor Magazine* in conjunction with S&P and Prima Capital, announces that it has signed a strategic distribution agreement with Adhesion Technologies whereby Eagle Global’s International Equity ADR portfolio will be made available to Adhesion’s investment advisor clients as part of the WealthADV overlay management program.

“The WealthADV platform is a comprehensive solution that allows RIA’s to outsource virtually all of their back office functions and offer their clients very customized investment management services,” says Richard Hellmann of Eagle Global. “It makes a great deal of sense from a practice management standpoint, but most importantly it allows a firm to focus on what matters the most: providing sound advice to their clients.”

Michael Stier, President and CEO of Adhesion Technologies added, “We are excited to be able to offer the Eagle Global international strategy to our clients. One component of the WealthADV overlay management value proposition is access to exceptional, ‘boutique’ money managers, like Eagle Global, to which independent advisors do not typically have access through the traditional managed account platforms. We continue to grow the capability of wealth advisors to deliver personalized and cost effective investment management services to their clients.”

Based in Houston, Eagle Global Advisors, LLC manages international, domestic and master limited partnership (MLP) strategies. Founded in 1996, the firm oversees in excess of \$1.5 billion for both private and institutional clients. In 2005, after a global search conducted by Callan Associates, the firm was chosen to sub-advise the Eaton Vance Tax- Managed International Equity Fund. In 2006 the firm’s sub-advisory responsibilities were expanded to include the Eaton Vance International Equity Fund and the international portion of the Eaton Vance Global Growth Fund.

Adhesion Technologies Inc., headquartered in Charlotte, NC, has been delivering innovative financial services solutions since 1999. Completely accessible from the internet, the WealthADV Platform is an innovative practice management solution for independent registered investment advisors (RIAs) comprising: i) outsourced portfolio accounting and back office services; ii) distinctive client communication and reporting services; and iii) powerful technology to enable for the RIA efficient, in-house overlay portfolio management - utilizing both proprietary investment strategies and those of third party managers. RIAs looking for enhanced alpha, improved firm profitability, state of the market client reporting, and a platform for scalable growth are finding WealthADV a compelling solution.
